

2021 Leo W. Seal, Jr., Scholarship Spotlight – Dale Nixon

Lake Jackson, Texas | Brazoswood High School | Plans to attend: Northeast Lakeview College

Described as an exceptional young man with impressive moral convictions, Dale Nixon is a top-notch student with leadership and compassion skills that, according to his teachers, will take him far in life.

As a four-year member of the Brazoswood High School Band, Dale has quite a record of accomplishments, including area and regional Band Marching Championships, Band State Marching Champion Finalists, Band Concert All Superior Regionals and Band Solo Excellence.

Dale's primary interests center around music and golf. Music provides him with a creative channel and golf provides a physical outlet while improving his mental

capability to focus and improve his game, he says.

A four-year-golf player, and a busy high school student who makes time to volunteer in his community, Dale knows the value of teamwork and has developed a keen sense of personal responsibility. He strives to push himself while maintaining a balance.

Mark Nichols, Associate Director of Bands at Brazoswood High School, says Dale will be a leader on his college campus, in life, and in the world for the rest of his life. Nichols adds, "He has a work ethic like no one else in the school. Not only is he involved, but he serves in the leadership position in everything he is involved in."

Dale plans to attend his first year at Northeast Lakeview College in San Antonio, Texas, before transferring to a four-year university. He has been accepted to Mississippi State, University of Southern Mississippi, Texas State University and University of Texas San Antonio. His ultimate goal is to earn a degree in Computer Science.

"Through technology we can make the world a better place for generations to come," Dale says.

Dale is from Lake Jackson, Texas. He is the son of Product Manager Diana K. Nixon.
